### Task description

AI4Copernicus aims to bridge the gap between AI- & data-driven innovation and providing economic, social & environmental benefits. Towards this aim it will create an open, inclusive and sustainable "AI-EO innovation cycle" via a series of open calls.

### Who can apply?

Individuals who are interested in submitting a proposal in specific social themes/social causes. **Up to 2 themes/social causes** will be funded.

### What kind of themes/social causes are we looking for?

AI4Copernicus is looking for citizen-driven **social problems/challenges** (1st stage) that can be subsequently solved using Artificial Intelligence and Earth Observation Data, by SMEs that will be selected in the 4th Round of AI4Copernicus Open Calls for Use-Cases based on the Citizen-driven Social Themes (2nd Stage).
